

Raja N Moorthy

Managing Director,
India Operations

Raja N. Moorthy is the Managing Director of Kirusa, India. He is responsible for the India operations, specifically overseeing technical management, testing and research and development.

Prior to this position, Moorthy was the Vice President of Engineering in Kirusa and led all aspects of the software development lifecycle. With over three decades of extensive experience and expertise in the telecom industry, Moorthy has a proven track record of building teams that deliver innovative solutions in the market.

Before Kirusa, Moorthy was Chief Technology Officer at Zyglobe, a provider of end-to-end wireless solutions for businesses. Before this, Moorthy was Director of Engineering at Sovern Inc., an innovator in web-based billing software for telecom and IP Carriers. Here he successfully led the development team to build a popular product still used in many European countries.

Earlier to this, Moorthy was the Vice-president at Network Programs, heading the development of major telecommunication software in the areas of ATM signaling. He has also managed the broadband networking division with multinational and multi-location teams comprising more than 75 software development and testing personnel and an operating budget of more than \$10 million.

Moorthy holds a doctorate in Computer Science and Engineering from IIT Delhi, along with a Master's degree in Computer Science from College of Engineering, Madras. He graduated
